

Y7 Catch-up Grant

The Bridge Integrated Learning Space

The literacy and numeracy catch-up premium provides schools with an additional £500 for each year 7 pupil who did not achieve at least level 4 in reading and/or maths at the end of key stage 2.

This is the case for all our pupils. In 2016-7 we spent the allocation of £6500 on resources for our classes which have Year 7 pupils in them.

Our literacy and numeracy results show that when compared nationally to other year 7s working at similar levels and from the same starting points, our students are making expected progress.

In 2017-18, our allocation (which we expect to be £6000) is contributing towards new curriculum resources.
